

Kongelund

Inward opening front door

Kongelund

A very solid and robust frame/sash system which enables large openings as well as a huge range of combinations with door, sidelight and toplight in one unit.

Hardware

Delivered with 3 point espagnolette with a solid through-going u-selvaqe of 30 x 10 mm. Furthermore, the frame is fitted with a through-going striking plate 30 x 10 mm long.

Durable hinge system with 3D adjustable security hinges and user friendly eccentric adjustment as well as maintenance free slide bearing technique. Handle, backplate and cylinder are optional extras. Please see accessories page 51.
